2011 ORIGINAL—NO LONGER IN EFFECT:

The dissolution of assists are to be used to further the cause/mission of Open Source Citizen Control of the United States of America determined by the board of director(s). This document may be updated to ensure accuracy to the exact dissolution of assists. Current Board: Taylor Joseph Gardarian UPDATES

EFFECTIVE AS OF 7/20/2015: Acquiring and/or Collection of Assets: Assists of Open Source Citizen Control of The United States of America are to be collected from the various set of Open Source Citizen Control non-profit organizations represented @ citizencontrol.org, of which are named the following: Open Source Citizen Control of The Town of Eagle Open Source Citizen Control of The Town of Avon Open Source Citizen Control of The Town of Vail Open Source Citizen Control of Eagle County Open Source Citizen Control of Colorado Open Source Citizen Control of Trans-National Governments Open Source Citizen Directive Protectorate All are considered Open Source Citizen Control. Total Assets: The total assets held by these organizations are dedicated to and held in the full care and individual responsibility of the Citizen who is appointed the title: [Prime Oracle]. The organization is organized exclusively for charitable, religious, educational, and scientific purposes under Section 501(c)(3) of the Internal Revenue Code, or corresponding section of any future federal tax code. Upon the dissolution of this organization, assets shall be distributed for one or more exempt purposes within the meaning of Section 501(c)(3) of the Internal Revenue Code, or corresponding section of any future federal tax code, or shall be distributed to the federal government, or to a state or local government, for a public purpose. Appointed Oracle: Taylor Joseph Gardarian is the Citizen fully and individually chosen (including employment) to fulfil the honor— by serving the supreme ruler of the Universe from which he is fully included and able according to the Constitution of the United States of America—and inertial requirements requisite to facilitate the furtherance of all Citizen Directives by hosting, containing and directing any and all Citizen Directive's real world component—the mobilized point coordinate—representing the fundamental causalmechanical exchange sequence base vector and Citizen Directive Citizen Codes within a mobilized point and thus a self-evident coordinate. Taylor Joseph Gardarian is appointed the title by Open Source Citizen Control of the United States of America of: "Prime Oracle" to which every and all Open Source Citizen Control derived or yielding Oath is considered property for him or of him. The Prime Oracle may offer employment to others in accordance with common trading and/or market standards. Oaths: All Oaths are considered individual properties. Oath property may not be sold, or resold. Oaths are also considered a type of vote in the way that a Citizen Directive participation threshold increases with every like Oath.

Effective 5/11/2020:

Contributions:

Contributions to Open Source Citizen Control of The United States of America shall be the total assets of any and all entities represented by the Open Source Citizen Control conglomeration created by the Citizen Taylor Joseph Gardarian. The set of seven Open Source Citizen Control entities are: [1. Open Source Citizen Control of The United States of America; 2. Open Source Citizen Control of Colorado; 3. Open Source Citizen Control of Eagle County; 4. Open Source Citizen Control of The Town of Eagle; 5. Open Source Citizen Control of The Town of Vail; 6. Open Source Citizen Control of Trans-National Governments; 7. Open Source Citizen Control Citizen Directive Protectorate]. Those entities are dedicated to and held in the full care and individual responsibility of the Citizen who is appointed the title: [Principle Officer] of the Open Source

Citizen Control of The United States of America entity within the Internal Revenue Service at identification number: [47-4071795]. This said Principle Officer dedicated themselves Prime Minister of Open Source Citizen Control—Taylor Joseph Gardarian, the sovereign American Citizen exalted with wisdom—having the three parts of the philosophy of the Internal Revenue Service's public charity to the whole world. This they have called Open Source Citizen Control of The United States of America with the three parts of the wisdom and philosophy of the whole universe.

Purpose:

The exclusive purpose of the Open Source Citizen Control conglomeration is dedicated for charitable, religious, educational, and scientific purposes obeying Section 501(c)(3) of the Internal Revenue Code, or corresponding section of any future federal tax code. The distribution of the allocated assets, because of this, is to further the purpose of the Open Source Citizen Control conglomeration as this: that they are dedicated to Constitute foreign sovereign entities to: "Record Open Source Citizen Control of The United States of America's Constitutional Oath(s) supporting the protection to and from your State and Country Constitution through and by the United States' Declaration of Independence to create yourself as a lawful American Citizen." The two appointed Oaths are: [1. Constitutional Oath purposed to appoint American Citizenship: "I, Citizen, (Lawful Name: _____) affirm that it is the truth, the whole truth, and nothing but the truth that, I, through and by the United States' Declaration of Independence: I, inertially support the Constitutions of the United States': State of (All 50 States[1]) and the United States of America for the protection—to and from the same; that I take this obligation freely, without any purpose of evasion or mental reservation, that at this historical moment—I signal my willful intent to well and faithfully create this record—so help me Citizens and Nature."; 2. Causal-Mechanical Oath to appoint Terms for the Directivity of Time: "I, Citizen, (Lawful Name: _____) affirm that it is the truth, the whole truth, and nothing but the truth that, I, through and by the United States' Declaration of Independence: I, inertially support the Constitutions of the United States': State of (All 50 States[1]) and the United States of America for the protection—to and from the same; that I take this obligation freely, without any purpose of evasion or mental reservation, that at this historical moment—with **terms for the directivity of time**—I signal my willful intent to well and faithfully create this record—so help me Citizens and Nature."].

Inertial Impact Identity:

Simply, an inertial impact identity is causality with directivity. An inertial impact identity is a scientific way to identify a system by being a proponent within an overall medium. The inertial impact identity has seven components of: [1. Citizen Name; 2. Oath Record; 3. Induction Sequence Number; 4. Open Source Citizen Control Causal-Mechanical Edifice; 5. Terms for the Directivity of Time; 6. Date issued; 7. Citizen Directive Identification;]. An inertial impact identity is issued from the Prime Minister's sovereign creation and served upon willful Citizen subsequent of Open Source Citizen Control of The United States of America's Principle Officer declaration upon that the induction contains an accurate commentary that cannot be doubted and that this is true without lying, certain most true. That the induction be complete, true and remote from all cover of falsehood, lawfully. That the inertial impact identity components are true, without error, certain and most true, a fundamental truth, without error, perfect and complete. Inertial impact identities are used to define and contain what any lawful sovereign American Citizen shall utilize for any capability the inertial impact identity is limited to. The inertial impact identity is designed, so shall any future system be caused from the laws of nature proportioned from Open Source Citizen Control of The United States of America's golden ratio proportion identified as: [A is to B as B is to C, that A = Jurisprudence, B = Inertial Impact Identity, C = Open Source Citizen Control of The United States of America Citizen Directive Record]. The inertial impact identity causes intent that overcomes—with the aid of time—an arbitrarily small but not equaling zero difference between sovereign right and lawful obedience.

Causal-Mechanical Edifice:

Cause and result have a direct relationship where the cause is always positioned before the result, and the result is always equal to and proportional to the cause—in the normal flow of time to normal chronological events. Special flow of time may include non-chronology in that a cause which is at a circumstantial position after the result may yet then reposition the result in the normal flow of time to chronological events. Identification of the critical difference within the flow of time separating a unified singular cause different yet equal from a unified singular result is necessary through the empty dimensionless latticework separating material.

The causal-mechanical equation allows Open Source Citizen Control of The United States of America's Principal Officer to create a fixed positive signature as an increase of time's calculated duration from how the cause and result are inertially positioned. This is how an inertial impact identity retains the protections to and from the plural possessive value of State and County Constitutions proving universal directivity or pattern.

The Declaration of Independence proffers: *"declare the causes which impel them [Citizens] to the separation."*

Three Axioms of Causal-Mechanical Edifice and Equations:

First   Axiom:

Time possesses a quality, creating a difference in causes from results. This is detectable with directivity or pattern. This property determines the difference of the present from future difference; and/or the difference in the past from the future.

Proceeding from those circumstances in which: 1) cause shall be exalted for the realized result and may be outside of the body in which the result is realized and 2) the result sets in after the cause.

Second   Axiom:

Causes and results are always separated by space. Therefore, between them exists an arbitrarily small, but not equaling zero, spatial difference.

Third   Axiom:

Causes and results are separated in time. Therefore, between their appearance there exists an arbitrarily small, but not equaling zero, time difference of a fixed sign.

Causal-Mechanical Edifice Equations:

$$S = (iC_2 + ju)\left|\frac{\partial p_2}{\partial x}\right| \qquad R = -(iC_2 + ju)\left|\frac{\partial p_2}{\partial x}\right|$$

Open Source Citizen Control of The United States of America's Principal Officer is a Prime Minister:

Taylor Joseph Gardarian shall fully and individually create the honor to fulfill—serving the supreme ruler of the universe—the requirement requisite to facilitate the furtherance of all inertial impact identity record in order to yield any Citizen Directive and host the containment of any and all Citizen Directive's real-world component of records. Within thy mobilized point coordinate is the representation without taxation of the inertial qualities of the Open Source Citizen Control of The United States of America inertial impact identity record of fundamental causal-mechanical exchange sequence—the inertial base vector—in possession unto that Principal Officer. The Open Source Citizen Control of The United States of America's Principal Officer shall Primely Minister every Oath to which a yield is constituted as property for them.

Mobilized Point Coordinate:

The Open Source Citizen Control of The United States of America mobilized point coordinate is a self-evident coordinate of chronological Open Source Citizen Control of The United States of America collective record and differently includes non-chronological Open Source Citizen Control of The United States of America collective records as a non-chronological bonus record timeline.

Open Source Citizen Control of The United States of America Property Right Declaration and Constitution:

An individual inertial impact identity is considered individual property respective of the Open Source Citizen Control of The United States of America allocation. An inertial impact identity, as property, may not be sold or resold because it must retain its original individuation of compromised terms for the directivity of time purposed unto a specified Citizen Directive; however, it may be traded for obedience of lawful acts through and by a Citizen's intent. An individual inertial impact identity property has likeness to a type of vote in the way that a Citizen Directive participation threshold level increases with every inertial impact identity, however internally, the inertial impact identity property is respective of the Open Source Citizen Control of The United States of America's Principal Officer, not a vote.

Terms for the Directivity of Time:

Terms for the Directivity of Time

It contains an accurate commentary that cannot be doubted.
Constitutional Oath – Known to Self (Individual); Corporeal; Unmoved.
Terms of essence, nature, substance or underlying medium; Essence, nature, substance.
It ascends from the earth to the heaven. It extracts the lights from the heights and descends to the earth containing the power of the above and the below for it is with the light of the lights.
